

Introduction to Haskell

Fintan Halpenny

August 13, 2019

Let's Learn Haskell!

- ▶ What is Haskell?

Let's Learn Haskell!

- ▶ What is Haskell?
- ▶ Why should we care?

Let's Learn Haskell!

- ▶ What is Haskell?
- ▶ Why should we care?
- ▶ What are we going to do today?

Getting Setup

- ▶ Cloning the repo: `git clone https://github.com/bitemyapp/fp-course`

Getting Setup

- ▶ Cloning the repo: `git clone https://github.com/bitemyapp/fp-course`
- ▶ Installing Stack:
 - ▶ `curl -sSL https://get.haskellstack.org/ | sh` or
 - ▶ `wget -qO- https://get.haskellstack.org/ | sh`

Getting Setup

- ▶ Cloning the repo: `git clone https://github.com/bitemyapp/fp-course`
- ▶ Installing Stack:
 - ▶ `curl -sSL https://get.haskellstack.org/ | sh` or
 - ▶ `wget -qO- https://get.haskellstack.org/ | sh`
- ▶ Pick an editor: vim, emacs, Atom, etc.

Getting Setup

- ▶ Cloning the repo: `git clone https://github.com/bitemyapp/fp-course`
- ▶ Installing Stack:
 - ▶ `curl -sSL https://get.haskellstack.org/ | sh` or
 - ▶ `wget -qO- https://get.haskellstack.org/ | sh`
- ▶ Pick an editor: vim, emacs, Atom, etc.
- ▶ Open up `src/Course/ExactlyOne.hs`

Working with Lists

- ▶ Open up `src/Course/List.hs`
- ▶ `stack --fast --file-watch --ta
"--match=Course.List/"`
- ▶ Edit and Save!
